CONFIDENTIAL

Journal - Office of Legislative Counsel
Tuesday - 11 June 1963

Page 2

25X1 4. [] Met with Miss Ann Schreiber, in the office of Representative John F. Baldwin, and delivered to her a response to the Congressman's inquiry on behalf of a constituent regarding the dissemination of information to the public. Miss Schreiber said she thought our response would be quite adequate.

25X1 5. [] Received an informal request from Mr. Sam Archibald, Staff Administrator, Hexas Subcommittee on Foreign Operations and Government Information, for briefing of the Committee regarding the reason for classification and sensitivity of information relating to the tracking of Soviet satellites. I thanked Mr. Archibald for posing the request informally and told him I would check the matter and would be back in touch as soon as possible.

Mr. Archibald also advised that the Agency should be receiving today or tomorrow a letter from the Subcommittee requesting answer to a series of questions on the polygraph and its use. Should answer to any of the questions prove difficult for the Agency, Mr. Archibald will be pleased to meet with us on the matter.

25X1 6. [] Returned to Mrs. Ann Bolton, Government Liaison Assistant to Congressman Edward J. Darwinski (R., Ill.), the Congressman's office file of correspondence with [] 25X1
25X1 [] Mrs. Bolton indicated that she would emphasize in the Congressman's response that our failure to employ [] 25X1
25X1 was not related to any single item but as stated in paragraph 3 of the Agency's letter, the Agency concluded upon our over-all assessment of [] 25X1
25X1 [] that he did not measure up to the total requirements for employment.

25X1 The fact of a second letter to [] from an Agency recruiter after [] was notified that he had not been selected for employment was explained as a failure of communications between Headquarters and the recruiter's office. Mrs. Bolton did not press this question.
